PUBLIC NOTICE –
Request for Proposals & Qualifications (RFPQ)
For the
**Greenfield Davis/Meridian Wastewater Collection System
Build-Operate-Transfer (BOT) Project**

In accordance with IC 5-23-5, the City of Greenfield (the “City”), acting by and through its Board of Public Works and Safety (“Board”), for itself is issuing this Request for Proposals and Qualifications (“RFPQ”) seeking statements of qualifications from qualified offerors for the development and construction of public infrastructure.

The public infrastructure to be improved may include the **development, construction, and, if required, financing services for the delivery of a wastewater collection system project consisting of multiple lift stations and approximately 5.5 miles of interceptor sewers** (all such infrastructure collectively referred to herein as the “Infrastructure” and the design and construction of the infrastructure being referred to as the “Project”). The infrastructure to be developed will be finalized during a scoping period with the selected development team.

The City anticipates entering into a public-private partnership agreement with an offeror pursuant to IC 5-23 to provide the work, labor, equipment, and materials to develop and construct the Project within the budgetary and the time limitations.

Given the complexity and fast-paced nature of the Project, offerors should provide the process and means by which the offeror would execute a design and construction phasing of equivalent wastewater system improvements, including the need for considerable coordination among those working on each phase of the Project and on the Economic Development Projects, the City highly encourages a team approach to submitting proposals in response to this RFQ.

For the avoidance of doubt, in the context of this RFQ, the term "develop" as defined by IC 5-23-2-5.5 shall mean to install and construct the Project Infrastructure, and the term "construct" as defined by IC 5-23-2-4 shall mean the process of building and assembling the Project Infrastructure

Copies of the RFPQ guidelines may be obtained by calling the Greenfield Wastewater Utility Admin at 317-477-4360 Monday through Friday 8:00 AM through 4:00 PM Eastern Time.

Responses to this RFPQ are due to the Utility no later than Noon Eastern Time on August 28, 2026.
